The 75 counties of Arkansas were for the most part given their official names in honor of some national or state leader who figured in the early peace or wartime history of the state and federal governments. However, several received their designations from the names of rivers, natural formations or in commemoration of the Declaration of Independence and the union of colonial states. Dates of their creation and distinguished men or highlights in history for which their counties were given their names was copied from an old newspaper (date unknown) but possibly the newspaper was the Arkansas Gazette, published in Little Rock, Arkansas.

EDITOR'S NOTE: At least one County History has been published, for most of these counties. Write the Library of the county (Enclose self addressed stamped envelope - S.A.S.E.) for the address to buy or at least research.

EDITOR'S NOTE:

This is our 18th ANCESTOR CHARTS VOLUME published by the ARKANSAS GENEALOGICAL SOCIETY, INC.

Our first ANCESTOR CHART VOLUME was very hard to gather (took us about five months to gather enough Charts for one Volume!). Then many of them needed to be re-typed, but since that time so many new members have requested membership in our Society, we have had a very hard time trying to keep enough Quarterly publications printed for everyone.

This is only one of our many projects, and it takes a lot of time to organize a new Ancestor Chart Volume. We have had to STOP placing Charts which are not typed ready to photo-copy. In the first place, we take too many chances of error, when names and dates can not be clearly read. (Some writing is not only BAD...it is terrible). We know much information will be passed over, but a chart with errors is worse than no chart at all...it may cause many years on the wrong track.

These charts are in much demand, by serious genealogical researchers and many public libraries, request them as soon as they are published.

We try to make our publications easy to research, but we do need help on your part too!

After the charts are gathered and placed in alphabetical order, then numbered, then printed, then indexed, then the index is typed, and then printed, and only then is the compiler's list typed and printed. Also every Volume is placed on COPYRIGHT. Even the copyright office, does not understand how we get so much information into print.

These Charts have been compiled by our interested members, who like to share their valuable research with others.

Our many thanks to Wanda Amo, Director for this index, she takes them to index as soon as they are printed...so they can be finished as soon as possible (finances are usually the 2nd problem, printing time is always a big problem, so is number one).

Along with Bible Records, Cemetery Records, WILLS, Marriage Records, etc., these are great ways to help document your records. Happy Hunting.....
